Gentlemen:

Thank you for reading and retaining my critique of the CAP water booklet distributed by the Sun City Homeowners Assn.

I did indeed attend the May 11, 2001 Open Meeting re Sun City Water Co. et al and filled out a request to speak. My name was not called; my application must have been misplaced.

I did not expect to preach to the court, but intended to use the time to answer the myriad questions that were sure to come. There's a good chance I could have saved the court some time and certainly saved the staff (and Ray Jones) some embarassment.

I intend to participate in the next session.

Very truly yours,

*Donald J. Coleman*

P.S. I am not familiar with the protocol in your court, but I resisted the impulse to jump up like a child and shout "Teacher, teacher, I'm here" when Mr Spitzer mentioned my name. Perhaps I should have been more aggressive.
